

Vishara Jayalath

AI & Data Science Undergraduate — ServiceNow Intern — CIMA CertBA

Colombo, Sri Lanka — visharajayalath04@gmail.com — +94 77 714 1307

linkedin.com/in/visharajayalath — github.com/visharaaa

Profile

AI and Data Science undergraduate at the Informatics Institute of Technology and ServiceNow Intern at NEXT Technologies, with interests in applied AI, machine learning, data analytics, and workflow automation. Experience building data pipelines, developing machine learning solutions, and working with ServiceNow application development and business process automation. Curious and adaptable, with a focus on learning through practical projects and hands-on technical work.

Experience

ServiceNow Intern – NEXT

May 2026 – Present

Technology / ITOM / Automation

- Supporting the development and implementation of ServiceNow solutions with a focus on workflow automation, application development, and business process improvement.
- Developing familiarity with ServiceNow administration, ITSM, scripting, application development, and platform-based workflow solutions.
- Collaborating with technical teams and gaining practical experience in Agile development, DevOps processes, and enterprise technology environments.

Education

Informatics Institute of Technology (IIT)

Sep 2024 – Aug 2028

Affiliated with Robert Gordon University BSc in Artificial Intelligence and Data Science

AICPA & CIMA

2024 – Present

CIMA Certificate in Business Accounting (CertBA), completed 2025

Selected Technical Projects

TeaCare AI – Tea Leaf Disease Detection System

github.com/visharaaa/TeaCareAI

Python, TensorFlow, Keras, NumPy, Pandas, Flask

- Leading development of an AI-based system for tea leaf disease detection and treatment recommendation for the Sri Lankan tea industry.
- Performed exploratory data analysis and image preprocessing to assess dataset quality, class distribution, and model readiness.
- Trained and evaluated deep learning models for disease classification and analyzed prediction errors to identify areas for improvement.
- Contributed to an end-to-end system combining image-based disease detection, retrieval-augmented treatment recommendations, and treatment progress tracking.

Flight Price Data Pipeline

github.com/visharaaa/aws-flight-data-pipeline

AWS S3, AWS Glue, PySpark, Python, Boto3

- Designed and implemented an end-to-end AWS data pipeline processing 300K+ flight records for analytics.
- Built a Python/Boto3 ingestion workflow to load raw data into Amazon S3 and developed an AWS Glue ETL pipeline using PySpark for cleaning and transformation.
- Engineered features through aggregations and prepared structured datasets for downstream analysis.
- Stored processed data in Parquet format and orchestrated automated execution using AWS Glue Workflows.

Telco Customer Churn Prediction & Analysis

github.com/visharaaa/Telco-Churn-ML

Python, TensorFlow, Keras, Scikit-learn, Pandas

- Performed exploratory data analysis on a telecom dataset to identify patterns associated with customer churn.
- Preprocessed data through encoding, scaling, and missing-value handling to prepare features for machine learning.
- Trained and evaluated classification models using accuracy and F1-score to compare predictive performance.
- Applied K-Means clustering to segment customers and analyzed model outputs to identify behavioural patterns.

Certifications

IIT Professional Development Unit

Data Visualization with MS Power BI (Sep 2025); Professional Certificate in Python Programming (Mar 2024); Professional Certificate in Java Programming with OOP Principles (May 2024)

SLIM

Professional Certificate in Marketing (2021); Certificate in Digital Marketing (2021)

Technical Skills

Programming	Python, SQL, Java, JavaScript, R, HTML, CSS
Data Science & ML	NumPy, Pandas, Scikit-learn, TensorFlow, Keras, Matplotlib, Seaborn
Data & Cloud	AWS S3, AWS Glue, PySpark, Boto3, Power BI
Tools & Platforms	Git, GitHub, VS Code, Jupyter Notebook, Google Colab, Linux

Leadership & Activities

IIT	Vice President Membership, IIT Toastmasters; Secretary, Media Society; Design Lead, Women in Engineering Affinity Group
Holy Family Convent	House Games Captain; Senior & Junior Prefect; Secretary, English Union; Vice Secretary, Gavel Club; Head of Administrative Staff, HFC Model United Nations Conference
